Dear Sir,

I would like to place on record my sincere appreciation of the way you have conducted business with us. It is very rare to find such high standards of sincerity, punctuality and trust-worthiness in the world of business today. It would be our pleasure to do business with you in the future too and I earnestly wish you the very best for a great future.

With best wishes,

Yours Sincerely,  
 Siba Karim

Recently NEELYOG ENGINEERS team have successfully installed Compressed Air Line Systems in Mumbai for an Electrical Socket and switch manufacturer. Now we are looking for upcoming Automobile Projects, Heavy Engineering, Workshop and Assembly Projects. Will be highly appreciate to receive your inquiry with Project Drawing to offer our most Competitive rates

### HYDRAULIC TUBE EXPANSION SYSTEM

The hydraulic pump supplied with hydraulic drive incorporation the latest state of the art technology resulting in a subcompact pump developing 100-bar pressure.

Expansion of tubes is regulated by adjusting pressure setting on pump. One required amount of wall thinning is achieved the drive trips automatically.

Silent during use, in comparison electric & Pneumatic tube expansion system are noisy.

Very high torque developed can expand large diameter thick wall tubes sheets easily.

Can be use for long working hours, because drive is unaffected by heat. Microprocessor controls on the pump automate the expansion cycle.
